

Downstream Extrusion Equipment

- 1 Vacuum Calibrators and Sizing Tanks
- 2 Belt Pullers
- 3 Cutters
- 4 Puller/Cutter Combinations
- 5 Saws
- 6 Wheel Pullers
- 7 Dump Tables and Takeaway Conveyors

Increased Post-Extrusion Productivity

Vacuum Calibrator and Sizing Tanks

- Vacuum Calibration Tank features a durable 12 gauge stainless steel tank for wet sizing
- Precision Vacuum Sizer is a superior, patented vacuum system for non-contact sizing of small tubing and hollow shapes
- Vacuum Sizing Tanks are perfect for tube and pipe. Contains multi-compartment stainless steel tanks

Belt Pullers

- Adjustable nylon entrance rollers
- Belt length ranges from 24" to 64"
- Set speed can be adjusted by convenient controls
- Belts feature AC Flux Vector variable speed drives for precise machine control

Servo Cutters

- Designed to eliminate downtime and increase productivity
- Comes with high torque ratings increasing force behind every cut
- Easy-access machine housing
- Quick-change bushings

Puller/Cutter Combinations

- Designed for maximum productivity with less maintenance
- Easy-access housing, quick-change blade system, and height-adjusting casters
- Easy-to-use touch-screen controls

Wheel Pullers

- Wheel Pullers are ideal when a traditional belt puller could damage the profile
- 18" maximum profile width
- 4" maximum wheel opening
- 4 and 8 wheel models available

Saws

- Chop-cut, Cross-cut, and Up-cut saws available
- Chop-cut saws produce up to 25 cuts per minute
- Cross-cut saws are designed for automatic, in-line cutting of rigid tubing/profiles up to 6" x 20'
- All saw tables glide on precision rails and linear bearings for the smoothest travel and increased bearing life

Dump Tables and Take-Away Conveyors

- For tubing and profile applications
- Complete control system
- Variable speed DC motor
- Height adjusting casters
